Naked Denver Contact Directory - Formal SDP + Concept Plan Import	
Generated / extracted	2026-05-30
Live Google Sheet write status	The sheet returned PERMISSION_DENIED on batchUpdate, so this workbook is an import-ready fallback rather than a direct live edit.
How to use	Use the New_* sheets to append only new rows, or replace the corresponding full sheet with the Directory/Projects/Companies tabs.
Formal SDP source marker	Rows imported from /Website Content/Tools/Formal Site Development Plans are marked Source Type = Formal Site Development Plans and Source / Extraction Date = 2026-05-30.
Concept plan source marker	Rows imported from /Website Content/Tools/Concept Plans are marked Source Type = Concept Plans and Source / Extraction Date = 2026-05-30.
Date note	Source / Extraction Date is the date this workbook was updated. When a PDF showed its own issue/plan date, that date is retained in Notes.
Summary	Count
Existing project rows preserved	4
Formal SDP project rows	22
Concept plan project rows	23
Formal SDP directory/contact rows	53
Concept plan directory/contact rows	36
Formal SDP company rows	41
Concept plan company rows	31

Source_Notes

Item	Note
Updated on	2026-05-30
Formal SDP marker	Rows imported from the Dropbox Formal Site Development Plans folder include Source Type = Formal Site Development Plans and Source / Extraction Date = 2026-05-30.
Concept-plan marker	Rows imported from the Dropbox Concept Plans folder include Source Type = Concept Plans and Source / Extraction Date = 2026-05-30.
Source-date meaning	Source / Extraction Date is the date this workbook was updated/extracted. When a plan sheet showed a document or issue date, that date is included in the Notes column.
Concept scope	Concept-plan rows were pulled from /Website Content/Tools/Concept Plans. Companion files such as checklists, narrative-only documents, title commitments, and duplicate render-only files were generally excluded unless they were the only visible project source.
Missing contacts	Some concept PDFs did not expose a clear cover-sheet/team directory through text extraction. Those projects are still included in Projects and marked accordingly in Notes.
Added later-pass contacts	A later extraction pass added readable DCAC, Tom's Gateway Liquor, 602 W 29th, 799 Logan, 2001 S Dahlia and related concept-plan contacts.
Naked Denver Article Narrative	Rows extracted from article pages linked from NakedDenver project pages. Source / Extraction Date includes the article publish date when visible plus the extraction date 2026-05-30.
Naked Denver Project Page Narrative	Rows extracted from server-rendered NakedDenver project pages when no related article page was present or when project/team information was on the project page.
NakedDenver /posts index limitation	The /posts page rendered only 'Loading articles...' in the text view, so this pass used server-rendered project pages plus related article pages reachable from them.
